

American Medical Women's Association
The Vision and Voice of Women in Medicine since 1915

AMWA has spent the last century
improving outcomes for women
physicians and their patients.

And we are just getting started.

**Together we are changing
the culture of medicine**

AMWA-Doc.org

We are transforming the future of medicine

We know physicians are being tested like never before. The American Women's Medical Association is here to support and empower you through our programs and community.

Women make up more than 50% of those entering medicine, yet fewer than 20% are represented at the highest levels of leadership. **AMWA is challenging these gendered barriers through innovative programs and strategic alliances. By promoting equity and expanding diversity, we are changing the face of healthcare leadership.**

As an AMWA member, you have access to a wealth of opportunities for both personal and professional growth, regardless of your specialty or career stage. Together, we have the power to influence meaningful change for ourselves, for our patients, and for a healthier tomorrow.

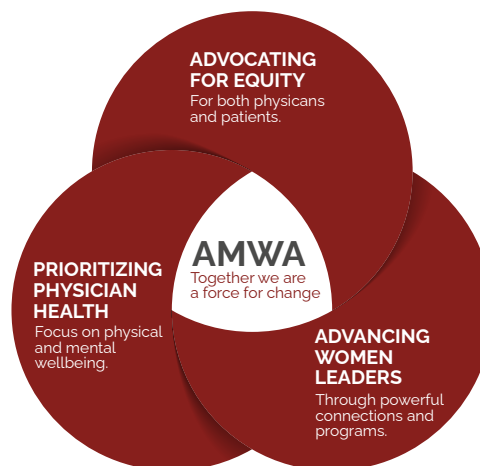

American Medical Women's Association
The Vision and Voice of Women in Medicine since 1915

Bringing the medical community together

Membership in AMWA offers you access to a dynamic network of women physician leaders across all specialties. The diversity of our community is one of our greatest assets, creating opportunities to learn from one another and form lifelong connections. We are committed to making AMWA a welcoming space for all in the healthcare field.

Benefit from our Diversity, Equity, and Inclusion work.

Women in medicine face a myriad of career-related stressors that impact physical, emotional, and mental wellbeing. We have created programs and coaching groups designed to help our members navigate career challenges and achieve a more satisfying work-life integration. Engage in our [medical humanities community](#) and rekindle the joy in medicine.

Confronting Burnout

Our programs reimagine wellbeing by recognizing that physicians are **Humans Before Heroes**. We are working to reframe mental health licensure questions that increase access to care. And we develop initiatives to ensure that women in medicine thrive, both at home and in their careers.

Add your voice to our [Advocacy efforts](#).

Tackling Specific Challenges

AMWA is addressing issues that impact women physicians, including fertility and family planning, family leave policies, caregiving, reentry, and career transitions. Gain understanding and be better prepared to make decisions, negotiate contracts, and plan forward.

Challenging gender and race biases

Fundamental to our core values is the belief that workplaces should be free from harassment, microaggressions, and other hostile behaviors. AMWA promotes practices to foster a culture of accountability, raise awareness of biases, and support a healthy work environment for all.

**We care about
our members'
health &
wellbeing**
