

*Come join the*  
**Center for Women in Academic Medicine and Science**  
*for a virtual event to discuss what it will take to achieve gender equity in  
academic medicine.*

Please join us for a virtual discussion with featured speaker France A. Córdoba, PhD, 14th Director (Ret.) of the National Science Foundation (NSF); President *Emerita*, Purdue University; and Chancellor *Emerita*, UC Riverside.

Dr. Córdoba will discuss how she drove culture change at the NSF, as well as her recommendations for achieving gender equity at academic institutions. We will also introduce the latest initiatives from CWAMS and our partner organizations.

Date: Monday, November 16  
Time: 5:00-6:00pm Eastern

Spaces are limited; register [here](#)!

You are welcome to forward this event to your interested faculty/colleagues.

*CWAMS is an organization committed to changing the culture of academic medicine and science by increasing the numbers of women in senior roles. We believe that achieving gender equity requires institutional culture change (rather than trying to change women to fit into the current culture).*
