

Healthcare Innovation Challenge

2023 Start-up Pitch Finalists

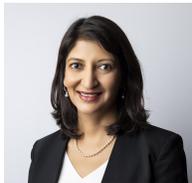

Eun Jung Choi, MD, PhD, MBA
CEO
Spave Science

[Spave Science](#) is a pre-clinical stage company that develops neuroprotective treatments that delay neuronal cell deaths at a critical time for ischemic stroke and traumatic brain injury.

Paula Doyle, MD, FPMRS
CEO and Founder
EndoGlow

[EndoGlow](#) - Surgeries are becoming more complicated; EndoGlow designs medical devices that allow the surgeon to see through tissue and make better, real-time surgical decisions. Passive surgical instruments are no longer acceptable.

Ruchi Gupta, MD, MPH
Founder
Yobee Care

[Yobee Care](#) - For a healthy scalp and beautiful hair personal care products powered by PROBYOME™ technology, a patented triple blend of probiotic extracts, organic honey, organic turmeric, and Vitamin B12.

Maggie Koos, MD, MS
Founder
Koos Medical Innovations

[KMI](#) enters the healthcare industry with the first disposable, non-surgical gown that meets FDA standards. Our goal is to improve healthcare workers' safety by providing effective gowns, a critical aspect of personal protective equipment.

Grace Lin, MD, MBA
CEO
HeartScreen Health

[HeartScreen Health's](#) mission is to find and monitor early heart disease by allowing doctors to remotely listen to a patient's heart sounds during telemedicine through the microphone of a patient's smartphone.
