20th September 2017

Dear Colleagues,

In the MWIA survey of members conducted earlier this year 46% of respondees reported sexual harassment while working. This survey investigates the sexual harassment of female medical students and doctors in more depth. The survey has been planned as part of the MWIA Scientific Committees work for this triennium. Names are not required in the survey and email addresses are only required if you would like to take part in a follow up Skype interview. All information provided will be treated with the strictest confidentiality. All data will be stored anonymously and cannot be traced to any particular person.

We are interested in gathering the demographics of those responding, investigate experiences of sexual harassment and the how you feel MWIA should respond.

Responding to the survey or participating in an interview may cause you distress, depending on your experiences. If you are worried that you may become distressed, please consider accessing support services before you decide to participate.

Results of the survey may be published in the future. The final report may be sent to organisations interested in the subjects raised.

We would be very grateful if you could complete the survey which should take no more than five to ten minutes. If you agree to an additional interview you will need to provide your email at the end of the survey. The interview will be via Skype and will take between 30-60 minutes. Your input will be much appreciated.

This is the link to the online survey:

Thank you for supporting MWIA in this important endeavour.

Sincerely,
Professor Bettina Pfleiderer

MWIA President, on behalf of the Executive Committee
